## **Printing Instructions**

The above photo is A4 in size. After printing out you will need to trim off the white borders. The final size should be approximately  $9 \frac{7}{8}$  inches (25 centimetres) by  $7 \frac{3}{4}$  inches (19.5 centimetres). Setting your printer to print this photo out as borderless will not work with this PDF File, although you will get a slightly bigger print.

When printing out please make sure that you have the photo page showing on your Adobe Reader and select print current page to avoid printing out this page also (unless of course you wish to print this page).
